

## **Save Jacksonville, FL's Children Cause**

For over 13 years, FOSCI has provided free professional support services to homicide survivors, FOSCI Families. Because of your donations and support we are still here fighting against crime in our neighborhoods through outreach and education projects. Touching the lives of hurting families is no easy task, but FOSCI accepts the challenge to help these families face the most tragic and horrific situations.

With you help FOSCI is positioned to:

- help save the children from ever experiencing the impacts of homicide again through intervention and education,
- sponsor venues to help homicide survivors to reach out to each other to discuss the grief and economic issues they face; and to accept that their loved ones are gone but not forgotten,
- provide an open-door facility with resources and partnerships required to help stop the violence in our neighborhoods.

Thank you for your participation in this cause. Your donations and support are always appreciated.
